## H1B Data in Going Global

[business.library.emory.edu/research-learning/databases/going-global.php](http://business.library.emory.edu/research-learning/databases/going-global.php)

Going Global contains H1B applications submitted to the US Department of Labor.

The H1B data includes over 500,000 DOL H1B per years, from 2009-present. Date included is:

- Industry
- Job Title
- Wage
  - Read more about prevailing wage data:  
[www.foreignlaborcert.doleta.gov/pwscreens.cfm](http://www.foreignlaborcert.doleta.gov/pwscreens.cfm)
- Company
- Location
- Number of Applications

**This resource is great for** browsing a broad list of companies who applied to sponsor H1-B visas in the past, as reported by the Department of Labor.

### **This resource is NOT:**

- Only MBA level jobs -- it includes **all H1-B** applications many of which are engineering and IT positions. The information must be filtered and evaluated.
- A contacts list – it includes company names and addresses, not hiring managers
- A guarantee the companies listed in it are currently hiring

### **Looking for More Data?**

- Check out the H1B data from the US Department of Labor:
